USER STORIES

SOFTWARE ENGINEERING ANALYSIS AND DESIGN

CLIENT

Client Scenarios

US-01

AS A
a new visitor
I WANT TO
create an account with my name, email and password
SO THAT
I can access the TravelFlow platform as a registered client

US-02

AS A
a new visitor
I WANT TO
be logged in automatically after completing registration
SO THAT
I can start using the platform immediately without any extra steps

US-03

AS A
a registered client
I WANT TO
log in with my email and password
SO THAT
I can access my account and all client-level features

US-04

AS A
a registered client
I WANT TO
see a generic error message when my credentials are incorrect
SO THAT
my account remains secure without exposing which field is wrong

US-05

AS A
an authenticated client
I WANT TO
log out from the navigation menu
SO THAT
my session is cleared and my booking data is protected

US-06

AS A
a client
I WANT TO
search for bus trips by selecting departure city, destination and travel date
SO THAT
I can see all available options for my journey

US-07

AS A
a client
I WANT TO
see trip cards showing route, departure and arrival times, bus model and price
SO THAT
I can compare options and choose the best trip for my needs

US-08

AS A
a client
I WANT TO
see a clear message when no trips are found for my selected route or date
SO THAT
I know to adjust my search criteria and try again

US-09

AS A
a client
I WANT TO
select my destination stop before confirming a booking
SO THAT
the correct price is calculated for my specific journey segment

US-12

AS A
a client

I WANT TO
receive a booking confirmation with a unique reservation code

SO THAT
I have valid proof of my booking to present to the driver

US-13

AS A
a client

I WANT TO
choose a random seat assignment at no extra charge

SO THAT
I can book a ticket quickly without manually selecting a seat

DRIVER

Driver Scenarios

US-20

AS A
a bus driver
I WANT TO
log in and access a driver-specific portal
SO THAT
I can see my assigned trips, bus plate and passenger count for the day

US-21

AS A
a bus driver
I WANT TO
see only the driver navigation options after logging in
SO THAT
admin and client pages remain hidden and inaccessible to me

US-22

AS A
a bus driver
I WANT TO
see a clear message when no trips are assigned to me
SO THAT
I know I should contact the administrator to check my schedule

US-23

AS A
a bus driver
I WANT TO
enter a passenger booking code and instantly verify their ticket
SO THAT
I can confirm they hold a valid reservation before allowing boarding

US-24

AS A
a bus driver
I WANT TO
see the passenger name, seat number, stop and route after validation
SO THAT
I can quickly identify and direct each passenger to their correct seat

US-25

AS A
a bus driver
I WANT TO
be alerted when a booking code has already been validated
SO THAT
I can detect and handle potentially duplicate or fraudulent tickets

US-26

AS A
a bus driver
I WANT TO
validate multiple passenger tickets one after another without refreshing
SO THAT
the boarding process remains fast and uninterrupted

ADMIN

Admin Scenarios

US-27

AS A
an admin
I WANT TO
log in and access a full management dashboard
SO THAT
I can oversee all platform operations from a single interface

US-28

AS A
an admin
I WANT TO
see key metrics such as total bookings, revenue, users, buses and rentals on the dashboard
SO THAT
I can monitor platform performance at a glance

US-29

AS A
an admin
I WANT TO
view the full bus fleet with plate number, model, capacity, assigned route and status
SO THAT
I have a complete picture of all available transportation resources

US-30

AS A
an admin
I WANT TO
view all rental cars with their details and current availability status
SO THAT
I can track the state of the entire rental fleet at any time

US-31

AS A
an admin
I WANT TO
view the maintenance schedule for all vehicles, including last service date and next due date
SO THAT
I can identify overdue services before they become safety risks

US-32

AS A
an admin
I WANT TO
mark individual or all services for a vehicle as completed
SO THAT
the next due date is automatically recalculated based on the defined service interval

US-33

AS A
an admin
I WANT TO
view all active and past car rentals along with their current status
SO THAT
I can monitor which cars are currently rented and which are available

US-34

AS A
an admin
I WANT TO
view a read-only statistics panel showing total users, bookings, revenue, rentals and buses
SO THAT
I can assess overall platform health without any risk of accidentally modifying data

US-35

AS A
an admin
I WANT TO
view all registered users with their role, email address and registration date
SO THAT
I have full visibility of everyone who has access to the platform
